

## **DUNLOP NEWS**

APRIL 2008

With the first quarter of 2008 behind us many of our Competitors continue to get that “DUNLOP DOMINATES” feeling in both Sprint and Circuit Racing activities here at Queensland Raceway.

Several of our regulars have made considerable gains against the time clock in events, none more so than well known Sprinter Mark Berry who has got his times down to the 52's on the Sprint Circuit and 54's on the Clubman Circuit after moving to the DUNLOP Tyre.

Now that's seriously quick.

On the Racing front Tony Bonnano, Nick Leonidies and the Team at Valley Car Clinic Racing continue to put in impressive performances up and down the East Coast at various Circuits running the DUNLOP DZ03G on their Mazda MX5's.

Our friends at the Alfa Club continue to see good growth in numbers competing with a number joining the DUNLOP DOMINATES competitor group enjoying their motorsport to the “max”.

The DUNLOP DZ03G Street Legal Tarmac Race and Rally Tyre continues to DOMINATE the Tarmac Rally scene, with 4 compounds available we can match a tyre to any car for any event.

We are currently doing very SPECIAL deals on several sizes of the DUNLOP DZ03G so give Doug Chapple a call on 0412 710 629 for a special price on your requirements and join the group experiencing the DUNLOP DOMINATES EXPERIENCE.

Remember when you become a DUNLOP Competitor at Queensland Raceway not only do get a opportunity to complete a supervised “Scrub Session” and receive a Data Sheet for your new tyres but you also lock into our Tyre Management Programme where we assist in managing your tyre wear by rotating and “flipping” tyres as required all at NO COST each time you compete at Queensland Raceway.

With some great events fast approaching such as the Queensland Raceway Championship meeting, more of the ever popular TOPGEAR one day meetings and the Queensland 500, not to mention the Wednesday Arvo, Saturday Arvo and TOPGEAR Sprints and stocks in many sizes improving, give us a call now to discuss your tyre needs.
